

Dear Gym Parents,

As all of you are aware by now, coach Ray Adams has had some serious allegations made about him. The Bieger's have been devastated about this. The gym is still investigating what the nature of his past incidents entailed, however the current incident did not involve a girl who was part of our team. This girl was from Twisters and worked with Ray for almost a year and a half. She was considering following him from twisters but only came in our gym for a couple of trial practices.

The Bieger's had done several background checks on Ray before he was hired as did USAG before he was licensed. These came back spotless. They ran further checks and still they came up empty.

The Bieger's first concern is, and always will be, the wellbeing and safety of all of their gymnasts. Although details are not available to provide to the public as of yet, there is significant evidence that suggests he is not guilty of the current allegations being made about him. The Bieger's never received any complaints or reports from any of their team girls, or their families that Ray did anything inappropriate to them.

We hope that all of the gym families will stand by the Bieger's in their effort to provide good quality gymnastics training and we hope all of you will show your support to them during this difficult time.

Sincerely,

Your Booster Club Board Members
